<b>Goals</b>	A deliverable product that satisfies the customers needs, Quality and Testing, User Satisfaction
	Apply best practice, deliver high quality code & documentation (by standards of the industry partner)
<b>Meeting norms</b>	Be punctual
	If attendance is not possible write a signal message to the team at least 1 day before.
	Find a balance for meeting/working time
<b>Working norms</b>	Be productive and do not have major crunch times.
	Automated testing, automated linting (to achieve uniform code style)
	Work with branches (bugs, features, ..)
	Work with development, staging and production stages
	Use technologies as defined by the industry partner (Programming language, AI framework, etc)
	Always review code before merging (by pull request)
<b>Coordination norms</b>	Work items are assigned to specific team members, the member feels responsible for its completion and to notify the team about issues
	Team members may form small groups / teams to work on components or tasks together
<b>Communication norms</b>	Communicate in case a meeting does not work out as early as possible, at least the day before
	Main channel is Slack, SD should communicate privately in case of specific issues
	Communicate technical issues in a corresponding slack channel of our team.
	Criticism should always be constructive, we do not tolerate bullying
<b>Consideration norms</b>	Discuss Issues with the team
	Transparency, providing clear information to customer
	Valuing customer's feedback
	Each team member's opinion is valued equally
<b>Cont. improvement norms</b>	Implement feedback of the team from previous weeks
<b>Rewards</b>	Everyone gets a drink of their choice (people in the same city can meet up) and post a picture in our group chat
<b>Sanctions</b>	A reason for being late on a meeting needs to be given.
